SW-005 Unmanaged Ethernet Switch 5 Ports

SW-005

- 5 Port 10/100 Mbs Ethernet Switch
- Power inputs: +5V to +30V DC
- Compact design with integral wall mount
- No software required - Simply plug in and connect
- Integral wall mount or optional DIN rail mount
- Connection speed and activity LEDs on each Port

Switches control the flow of network traffic based on the address information in each packet. A switch learns which devices are connected to its ports (by monitoring the packets it receives), and then forwards on packets to the appropriate port only. This allows simultaneous communication across the switch, improving bandwidth.

+5 to +30 Volt Power Input enables the device to be run from a standard car battery - ideal for in vehicle applications

Non conducting polyamide casing prevents electrical conduction – for safer installation

Connect, Configure, Control

Brainboxes' Easy Wire Feature:
Removable screw terminal blocks makes wiring to power supply easier and quicker.

Wide Range Input Power Supply:
+5VDC to +30VDC accommodates variation in the +24VDC factory floor and allows alternative power sources, such as any computer USB port.

HP Auto MDI/MDIX crossover support
Auto-MDI/MDIX eliminates the need for cross-over cable thus reducing installation costs. All 5 Ethernet ports are Auto MDIX and so straight through or crossover Ethernet cables can be used to connect to your Ethernet devices. Easy to use.

2k Byte maximum packet size – improves the efficiency of bulk data transfer and system performance
Automatic detection of data transmission speed: 10 or 100 MBps

Power consumption is optimised based on the status of the link device. Energy detect power down for when the cable is not plugged in and power down/slow oscillator mode when the device is not in use.

No software needed:
Simply plug any ethernet cable into one of the four Ethernet ports on the device to connect it.
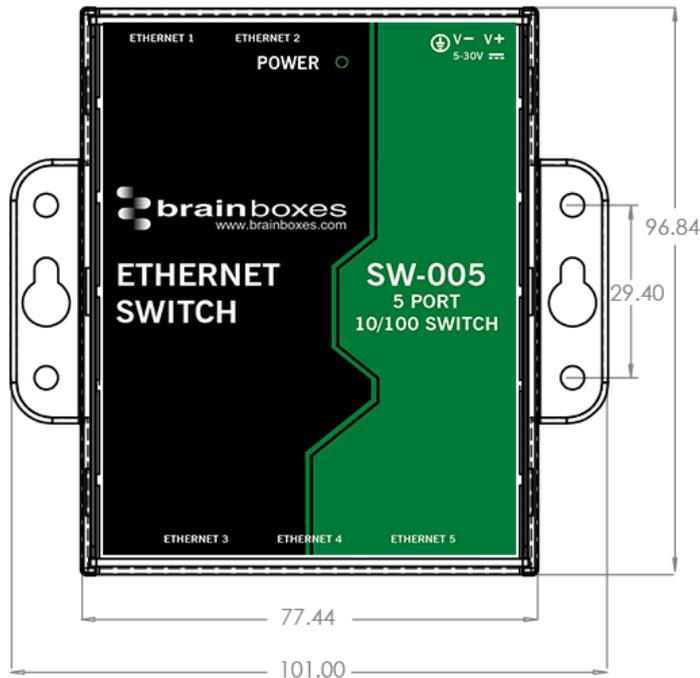

Lifetime Warranty and Support:
We can help with every aspect of your project, from getting you up and running to custom application.
